

Overview of a selected range of TIK TOK Apps.

FlashBet Wheel

The "FlashBet Wheel" is a revolutionary approach to online sports betting that has cross market and cross gambler profile appeal, from the sports betting market and football pools player to the 'Lucky Dip' lottery player, and from the novice gambler and 'accumulator' punter to the analytical sports bet player.

The player makes 6 selections
3 Home wins
2 Draws
1 Away Win

This App is the first of its kind to deliver 10 groups of 6 X 6 fold accumulators within 10 seconds. Available on all major platforms, designed from the outset and optimised for handheld devices.

This App will be made available for all major football soccer leagues and will allow betting opportunities across those leagues.

FLASHBET MINI WHEEL

The MINI WHEEL is easy to use and is a simplistic extension of the original FlashBet Wheel which involves 3 selections instead of 6 selections.

1 Home win
1 Draw
1 Away Win

The application automatically produces the best odds for the standard "minimum" bet that is based purely on the outcomes chosen.

The algorithm behind the program throws out groups of 5 X 3 folds and arranges them in specific odds groups.

This App satisfies the growing desire by modern punters for rapid easy access to betting opportunities.

This App will be made available on all major platforms and for all major football soccer leagues and will allow betting opportunities across those leagues.

DRAW PREDICTOR

The DRAW PREDICTOR is based on Fibonacci Theorem and easy to use.

The Draw Predictor App generates likely to win bets based on future draw results in football matches by selecting match results that give the user a higher propensity to win.

The principle that drives this concept on the backend is based on following a team to see a series of match days without a draw. The longer the series, the greater the propensity to make gains.

The Draw Predictor App delivers straight into the hands of the punter an easy to use unique App that defines where draws are more likely to occur. This App will be made available on all major platforms and across major football leagues.

MARKET MAESTRO

The MARKET MAESTRO is a fusion of Audio and Visual. A music alert and prompt App where trading prices are reflected with harmony on a musical staff to provide audio and visual market trend indicators.

The Market Maestro App is where maths and music are infused to show market direction. Subject to appropriate approval a "Flash Trade" option will be made available.

The App shows correlation of market price movements and musical notes to convey 'melodic trend patterns'.

Market moves are fused in an algorithm matching exact market moves or sequences of movement WITH Classically recognisable note patterns.

TIK TOK enhanced technologies

TIK TOK are at the early development stage in the design and production of a TIK TOK gaming machine and a TIK TOK gaming tablet to further promote the use of the TIK TOK suite of Apps using chip technology interface.

The gaming machine market is currently enjoying somewhat of a renaissance and TIK TOK is currently scheduling a roll-out program to place its product in France and Spain where market demand is high.

The planned TIK TOK gaming tablet will allow for the Company's suite of Apps to be placed on a TIK TOK branded handheld device which will allow the user to benefit from all the betting and play opportunities offered.

The user can also apply a fusion of different bet products, for example they could use the draw predictor App to input their draw selections into either the FlashBet Mini-Wheel or the FlashBet Wheel.

The Company is also advancing the use of Token Play and Crypto Play across its range of Apps to create interest in a wider range of markets.
