OPEN ROUND ROLL-OUT

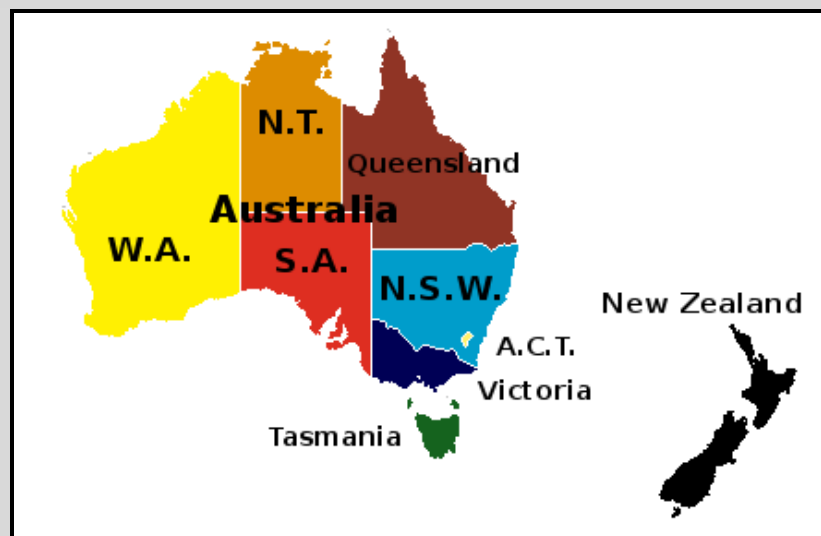

In Negotiations

## The West Africa Region - OPEN ROUND ROLL-OUT

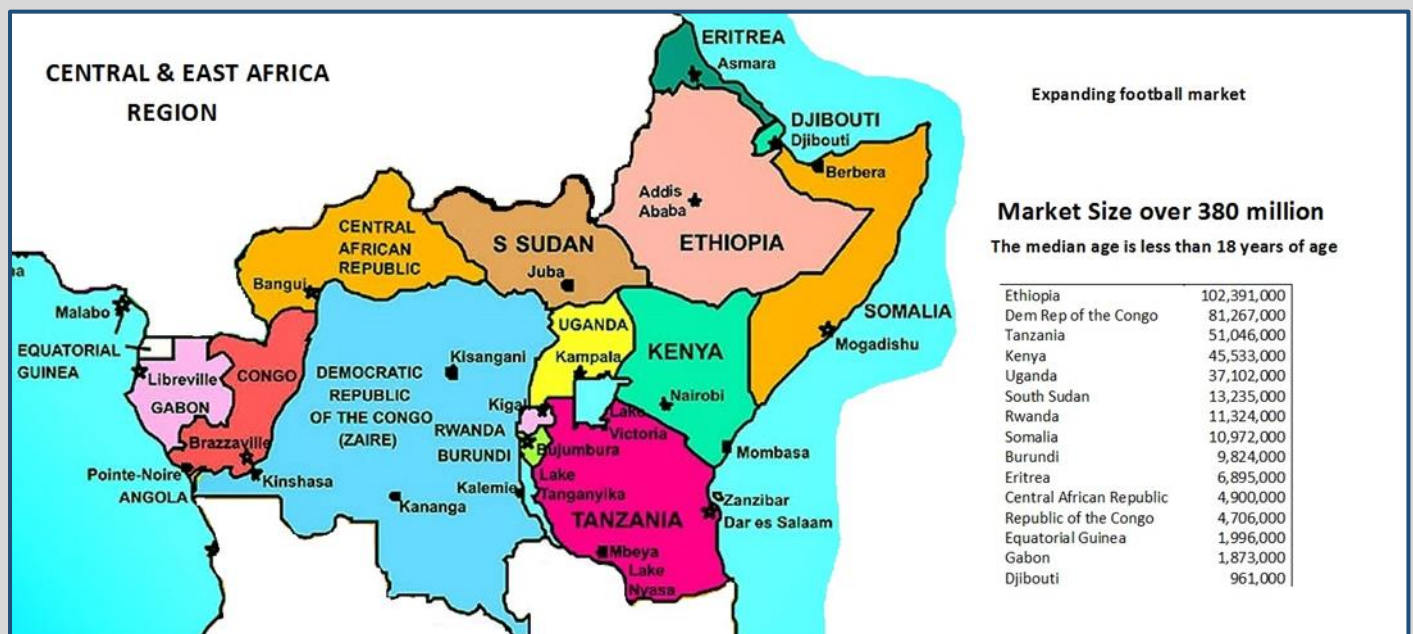

The West Africa Region would include the following countries.

The West Africa Region is considered by TIK TOK as a Prime future betting region with market trends suggesting continuous growth over the next decade. There are some cultural issues regarding gambling especially in the more northerly regions and to overcome this TIK TOK have designed a token play roll-out in those regions. International and national football is becoming more popular every year.

## Central & East Africa Region - OPEN ROUND ROLL-OUT

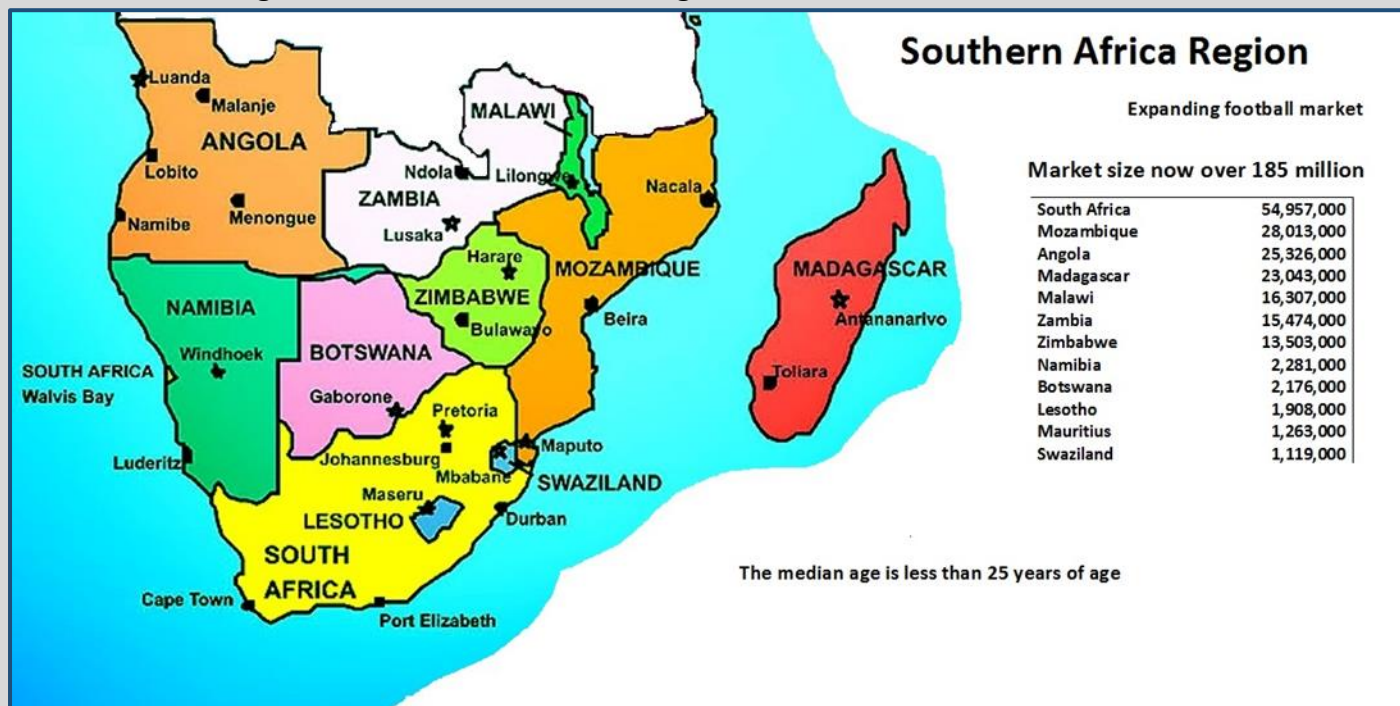

Central & East Africa Region would include the following countries.

The Central & East Africa Region is considered by TIK TOK as a Prime future betting region with market trends suggesting continuous growth over the next decade. There are still some cultural and political issues to overcome.

## Southern Africa Region - OPEN ROUND ROLL-OUT

Southern Africa Region would include the following countries.

The Southern Africa Region is considered by TIK TOK as a Prime future betting region with market trends suggesting continuous growth over the next decade. There are limited cultural issues to overcome and gambling is more or less accepted in the general region.

## Northern Africa Region - OPEN ROUND ROLL-OUT

Northern Africa Region would include the following countries.

The Northern Africa Region is considered by TIK TOK as a future lower than prime betting region due to the inherent cultural and political issues surrounding gambling. The Football audience in the region is expanding and there is room in the market for the roll-out of token play on the app which would act as first non-gambling introduction.
